WHAT IS FILL A BAG, FEED A FAMILY?

Fall 2020, **Mobile School Pantry** unveiled the latest component of its food access initiatives: **Sprout**, our pantry school bus. Eating better shouldn't cost more. **We believe that everyone should have equal access to healthy food.** When you fill your bag, you help feed families at no cost to them through our **Mobile School Pantry program.**

The mission of MSP 's **Fill a Bag, Feed a Family market** is to improve access to healthy, affordable food regardless of where someone lives or how much they earn. **Sprout will offer fresh produce and other nutrient-dense food to neighborhoods and communities in food deserts.** We will also be partnering with local healthcare providers to fill healthy food scripts.

No registration is required as the FABFAF market is available to the public. To ensure MSP's carbon footprint remains low, we recommend attendees bring their own reusable bags.
